

Trumps Green Infant School

Dear Parents and Carers,

FUTURE SELVES WEEK

Future Selves week has been a huge success packed with learning and fun.

Thank you to all those parents who have kindly come in to talk to the classes about their particular jobs and areas of interest. Our aim is to provide the children with as many opportunities to be inspired and to develop curiosity and knowledge about future roles they may like to pursue.

Mrs Moore came to talk to the children about her critical role as fundraiser/leader for St Peters hospital. The children were very excited to hear about the fundraising for a playground at St Peters which will make so much difference to poorly children. Mrs Moore asked the children what sort of playground they would like and they chose the jungle themed one. It is lovely to be able to have another link to St Peters after our annual pyjama donation at Christmas developing empathy and care/thoughtfulness towards children who are poorly.

Mr and Mrs Marshall came in their full uniforms to tell the children all about their lives in the army playing instruments whilst riding on their magnificent horses. They showed the children all parts of their uniforms including the different hats and boots they wear. The children loved to hear all about their roles and asked interesting questions. They played music on a flute and a bassoon along to a clip of Bluey which the children loved.

Mr Meohas educated us all on information technology, keeping safe and his role in security of data. It was interesting for the children to be taught about the past and the way information has changed so quickly over the last few decades. He discussed the timeline of information technology starting with CD's, moving onto digital and then AI. Most importantly the children were able to share their knowledge of e-safety and how important it is to keep our personal information safe and to not share it. Mr Meohas reiterated that if the children are ever unsure about anything in the technical world to ask their trusted adults.

Mrs Welter is a sales manager for an engineering company that manufactures lifts and car parking systems including underground system in Denmark. She brought in her safety equipment that children were able to try on and showed us how a laser device measures distance.

Mr Kingsley who is a marine archaeologist came to talk to Ladybirds and Bumblebees about diving on a ship wrecks. He talked about what was under the sea and told us that one of his crewmen found three ship wrecks in a row and found treasure chests. Henry in Bumblebees told me that because in olden times everything went on boats, they find all sorts of things in wrecks and on the sea bed including pineapple in jars and jam in jars. Also found was a 100-year-old motorbike covered in barnacles. Henry was very inspired and would quite like to be a deep-sea diver and find out about the past, "finding clues about the old times, as then you can tell about was happening in the old times".

Mrs Rajbans who is a pharmacist showed the children an instrument that measures blood pressure by listening to the heart and told us all about how she helps 'patients' with their health worries and prescriptions.

MARCH

Trumps Green Infant School

Miss Maya is an independent music artist who is an ex-pupil of Trumps Green. She shared her music with us while playing her guitar. The children loved finding out about why she writes her own songs and how she goes from writing a song to releasing a music video.

MARCH

PERFORM

We invited Perform the theatre company in for a treat. Magical dust was sprinkled over the children which turned them into toys, Ella was a dolphin, Alba was a bunny and Rhoen chose to be a tablet. The children had to stay very still so they were not caught by the witch. The witch left a cake, went to get her cutlery and in her absence the children dived in and eat the cake.

HSBC

We have a great link with HSBC organised by Mrs Bond, which allows us to develop life skills for the children. This time they told a story about a bunny and a squirrel, making choices about whether to save or spend. Maths was incorporated through shopping and receiving change. With Year 1 and Year 2 children they talked about coins and the use of physical money.

Trumps Green Infant School

MINDFUL WORKSHOP

During Mindful Workshop, organised by Mrs Maidment, the children learnt about "Growth Mindset" and discussed and thought about something they would like to get better at or try for the first time. The children had to record on post its what they were good at, what they would like to get good at and their thoughts about succeeding at something.

YEAR 1 & 2

In Year 1 and Year 2 the children developed their engineering skills by building towers with newspaper. The intention/aim was to create the tallest self-standing tower. Some children were a little mischievous and used cello tape to secure their towers!!!!

WORLD BOOK DAY

The children loved World Book Day - well done everyone for helping your children with their wonderful costumes. And of course, all the grown-ups at Trumps Green love a dress up too.

RAMADAN

Mrs Khalil and Mrs Broughton kindly came into school to help the children in Year 1 and Year 2 learn about Ramadan being the special month in Islam when Muslims fast, pray, and do good deeds, helping them learn patience, kindness and gratitude.

During this month, many Muslims fast from sunrise to sunset, which means they do not eat or drink while the sun is up. Fasting helps people practice self-control, feel empathy for those who are less fortunate, and focus on being kind and thankful. The children explore meaningful symbols through a craft activity

MARCH

EASTER EGG HUNT

Thank you to all the Mummy's who came to help with the Easter egg hunt and of course to the Easter Bunny who made the time to come to our school in their very busy schedule. The children absolutely loved the occasion searching for eggs with each other and helping each other, having their photos taken and then receiving their Easter egg. Thank you so much to the FOTG who funded this special treat.

JONATHAN HULLEY

We had a most productive visit from Councillor Jonathan Hulley. The FOTG, Mrs Kavia and I gave him a tour of our school which he has visited several times previously and then discussed our wish to apply for a grant to improve the education and facilities we can offer our children. We have decided to apply for funding to upgrade our lower playground to an inviting PE/well-being learning space. We hope that the application will be successful and that we can begin with works as soon as possible in the Autumn term.

MOTHER'S DAY

The children enjoyed decorating their little plant pots with painted flowers. We hope you enjoyed your special treats and had a lovely Mothering Sunday.

UNIFORM

The children may wear summer uniform if they wish weather dependent. As the weather warms up, whilst we request that children always have a coat, they also have sunhats and wear sun cream. There is all day suncream available which is the best option however your children may bring suntan lotion to top up if they can apply it themselves.

EARRINGS

Please may we remind parents that the children are only allowed to wear small stud earrings for health and safety reasons. Additionally, the children are not allowed to wear earrings at all for PE. Our staff are not allowed to take earrings out so if your child is unable to remove them independently, we request that they do not wear them to school on PE days.

SHARING LEARNING

We know how much you all love coming into school to see your children's learning and my goodness they get so excited to show you. We hope you are amazed at the progress the children have made since your last visit at Christmas. We often ask the children to look back through their books to the beginning, they are often surprised and thrilled with themselves which is so special to see.

CAKE SALE

What a lovely way to end term with a cake sale - it is amazing how much these sales raise for our school. Thank you to the FOTG for all that they organise and lead, constantly working hard together to find new, exciting and creative ways to raise funds Their work is admirable and makes a huge difference. supplementing our school budget providing so much enrichment and treats.

Wishing you all the most special Easter holidays with family and friends. We look forward to seeing you back at school on Tuesday 14th April for a fun filled and eventful Summer term.

Best wishes
